

## Policy Plan

of the European Society for Evolutionary Biology (ESEB) for the period from August 2019 until August 2021, and including prospective activities

### **Goals of the society (as stated in the constitution)**

Aim is: to promote the study of organic evolution.

The society seeks to achieve this by:

1. Publishing the *Journal of Evolutionary Biology* and *Evolution Letters*
2. Organizing congresses and scientific meetings
3. Rendering financial and other support to research in organic evolution
4. Supporting activities to foster a scientifically based understanding of organic evolution in teaching and research

Doing anything related to the above, directly or indirectly or incidental thereto, all in the broadest sense

### **Activities:**

Publishing the *Journal of Evolutionary Biology* and *Evolution Letters*

ESEB maintains its own website, <https://www.eseb.org/> with information on the society's activities, and other current matters relevant to the study of evolution. The society is also represented on Twitter (@eseb\_org).

ESEB sponsors evolutionary biology congresses. Every two years an **ESEB congress** is organized, which is sponsored with up to 200,000 €. The following amounts are earmarked from the society's funds: 200,000 € for the ESEB 2021 Congress in Prague, Czech Republic, and 200,000 € for the ESEB 2023 Congress. In addition, 250,000 € are earmarked to cover losses in case of extreme unforeseen events at a congress.

### **Joint congresses with other evolutionary biology related societies**

Every 6 years a joint congress with other evolutionary biology related societies will be organized. ESEB subsidizes these meetings with up to 200,000 €. The next joint congress will prospectively take place in 2024.

ESEB supports the **annual meeting of European PhD students in Evolutionary Biology** (EMPSEB) with 15,000 € per year.

ESEB supports the **EvoKE Network** with 10.000 € annually.

### **Conference Travel Award**

ESEB awards travel stipends for up to 15,000 € annually. These awards support students and young scientists to attend the bi-annual ESEB conference and participate in SSE meetings.

### **Equal Opportunities (EO) Initiative**

The equal opportunities initiative aims to ensure equal opportunities in all activities and facets of our society, and to increase awareness for the problem of underrepresented groups. The EO initiative committee will initiate actions to ensure equal opportunities and monitor status and progress of underrepresented groups in our society and field. To accomplish these goals the committee will have a budget of 15,000 € per year.

### **Global Training Initiative**

The aims of the Global Training Initiative are to promote evolutionary research and to support local evolutionary biology communities in developing regions. This will be accomplished by co-financing workshops in these regions with a maximum of 12,000 € per annum.

### **Godfrey Hewitt Mobility Award**

ESEB will administer the Godfrey Hewitt Mobility Award scheme to support field work or study visits of junior scientists. The maximum individual award will be 2,000 € and the total awarded amount 10,000 € per annum.

### **John Maynard Smith Prize**

Every year the ESEB awards the John Maynard Smith (JMS) Prize. The total budget for the JMS prize is 10,000 € for 2 years.

An **Outreach Fund**, available globally to promote evolution-related activities, with a total annual budget of 20,000 €.

### **Policy Committee**

The newly established Policy Committee organises the policy activities of the society such as providing evidence-based advice, establishing contacts to policy makers, and producing briefing notes. The committee also fosters contacts to other organisations with similar missions. To accomplish these goals the committee will have a budget of 10,000 € per year.

### **Presidents' Award**

The award is intended to recognize outstanding contributions to evolutionary biology by a mid-career scientist. The award is to be in the gift of the three Presidents in post at the time (Past-President, President and President-Elect) and so will be known as the Presidents' Award. The award includes an invitation to attend the Joint ESEB Congress (registration fees and travel expenses included) and to present the Presidents' Award address.

### **Progress Meetings in Evolutionary Biology**

ESEB provides funding for one annual short focussed meeting intended to discuss a new research development. A condition of the award is that we expect the meeting to result in a Special Issue or Target Review in JEB. Each meeting is funded with a budget of 15,000 €.

### **Special Topic Networks**

ESEB organizes Special Topic Networks (STNs) that offer a flexible system to support small meetings and networking in focused and currently active research areas in evolutionary biology. Calls for STN topics are announced biennially before the ESEB congresses and shortlisted by a STN committee drawn from council members. Top-listed proposals are presented to the membership and two proposals per round selected by a vote of council. Each STN is funded for a period of up to 6 years with a budget of 10,000 € per annum.

### **Stearns Graduate Students Prize**

Every year the society will award a prize for the best paper by a graduate student published in the *Journal of Evolutionary Biology* in a calendar year. The award includes an invitation to attend the ESEB Congress (registration fees and travel expenses included), and a cash prize of 250 €.

### **Financial affairs:**

The society's income consists of the profit shares from the publishers of the *Journal of Evolutionary Biology* and *Evolution Letters*, the income for the referral of manuscripts to *Ecology and Evolution*, and the ESEB membership fees.

The society's finances are managed by the steering committee and the executive vice president, as specified in the constitution.

Our aim is to approximately balance income and expenditure while maintaining sufficient funds to secure the long-term future of the society.
